Miss Geraldine Grimm, Russell Marti Married

Sacred Heart Catholic Church was the scene of the wedding Saturday morning of Miss Geraldine Grimm, a daughter of Mr. and Mrs. George L. Grimm, 2306 Benton street, and Russell E. Marti, a son of Mr. and Mrs. Earl J. Marti, 2611 Sheridan avenue.

White gladioli and pom poms, flanked with palms, provided the setting for the ceremony, performed at an 11 o'clock Nuptial Mass by the Rev. Joseph A. Enright.

The wedding breakfast and reception were held at the Veterans of Foreign Wars hall.

The bride was lovely in a gown of candlelight peau de soie and Alencon lace was jewel-embroidered in a triple tiered bouffant veil of illusion. Stephanotis and variegated ivy were combined in the bride's cascade bouquet, which was centered with a corsage.

Miss Carol Pieper was maid of honor. Miss Carol Marti, the bridegroom's sister, and Miss Marilyn Bell, the groom's cousin, were bridesmaids, and Helen Gysarait served as junior maid.

They were dressed alike in floor-length gowns of moss green velvet and ivory Venice lace. They were styled with high Empire waists, scoop necks, cape collars of the lace and A-line skirts with back fullness.

All of the girls carried Tropical roses and garlands of variegated ivy. A flower girl, Susie Marti, the bridegroom's cousin, held a miniature bouquet like those of the older attendants.

Ricky Willmore served as ring bearer.

Joseph Baker was best man and Kelly Grimm, the bride's brother, Dennis Bell, the bridegroom's cousin, Tom Billiter and Richard Willmore composed the list of groomsmen and ushers.

Mrs. Grimm, the bride's mother, wore a dusty rose crepe sheath dress with a lace jacket and overskirt and a sequined hat and purse, while the bridegroom's mother chose a two-piece light blue brocade dress and matching accessories. Both mothers wore white cymbidium orchid corsages.

After a honeymoon at the Tanager-A resort in the Ozarks, the couple will live at 1412 Twenty-first street.

The bride is a graduate of Granite City high school and is employed in St. Louis. Mr. Marti graduated from Assumption high school in East St. Louis and is presently attending a chiropractic college in St. Louis; he will graduate in September. He is employed at Michel's Gift Shop.

MRS. SAMUEL DYMAS, the former Terry Rae Laney, a daughter of Mr. and Mrs. H. E. Laney, 1633 Ferguson avenue, who was married Saturday at St. Elizabeth Catholic Church.

Dymas-Laney Wedding at St. Elizabeth Saturday

The wedding of Miss Terry Rae Laney and Samuel Dymas was solemnized Saturday morning at St. Elizabeth Catholic Church.

The parents of the couple are Mr. and Mrs. H. E. Laney, 1633 Ferguson avenue, and Mr. and Mrs. Joseph Sobolski, 805 Greenwood street, Madison.

Rev. Lawrence Mattingly heard the vows of the couple at a 12 o'clock ceremony. Music for the wedding was furnished by the church choir and Sister Mary Jean, organist.

The bride wore a gown of Chantilly lace. Floor-length, it was designed with a fitted bodice, the neckline etched with pearls and crystals, as were the long sleeves. Ruffles cascaded down the sides of the very full skirt, which swept into a chapel train.

A petal headpiece of lace held in place a tiered bouffant veil outlined with sequins and pearls. It was of imported silk illusion and was worn forward on the forehead. The bride held a cascade bouquet of gardenias.

Mrs. Nedra Jones was matron of honor and Misses Cheryl and Deborah Cox, nieces of the bride, were bridesmaids. Two other nieces, Delora and Donna Cox, served as flower girls. A nephew, Michael Cox, carried the rings.

The honor attendant was in emerald green with a bodice of velvet and a crepe skirt. The tight bodice featured a scoop neckline and short sleeves. An A-line skirt held in place a tiered bouffant veil outlined with sequins and pearls. It was of imported silk illusion and was worn forward on the forehead. The bride held a cascade bouquet of gardenias.

She wore a headpiece of lilies of the valley, a bow and maine lace veil and carried a bouquet of carnations tinted green.

Moss green and willow green

were combined in the gowns of the maids. They wore willow green headpieces and carried moss green carnations.

The flower girls were in short green velvet dresses with white lace. Green bows in their hair and they carried baskets of rose petals.

For her daughter's wedding, Mrs. Laney selected a white brocade satin A-line dress and a matching coat. Her flowers were bronze spider mums, and accessories were of brown. The bride and groom's mother wore a moss green sheath dress trimmed with green lace and matching accessories.

A white orchid corsage was pinned at her shoulder. Mr. Dymas was attended by David Porys, best man, and Gary Lusk, and Richard Morauki, his cousins, Robert Cox, a brother of the bride, and Leo Portelli, groomsmen and ushers.

The wedding breakfast was at the home of the bride, and friends of the couple attended a reception in the evening at the Venice-Madison American Legion home.

After a honeymoon in the Missouri Ozarks, the newlyweds will be at home at 1723 Edwardsville road, Madison.

A graduate of Granite City high school, the bride is employed in St. Louis. Mr. Dymas was graduated from Madison high school and attended Illinois State University, Normal, for two years. He is employed by the state highway department.

Out-of-town guests attending were Mr. and Mrs. A. E. Cox and their daughter, Janice, of Salt Lake, Utah; Mrs. Jean Potter, a sister of the bride, of California; and Mrs. Bryan Meyer of Garden Grove, Calif.

Keller-Mimlitz Nuptials Sunday In Dubois, Ind.

Mrs. Ralph Lorey, organist, played the wedding marches and accompanied the soloist, Miss Carol Conrad, as she sang "Whither Thou Goest," "My World," "Because" and the Lord's Prayer.

The bride wore a gown of white embroidered organza over tulle. It was designed with a fitted bodice and a bouffant skirt. The gown, which featured a scalloped neckline and long sleeves, was trimmed with Alencon lace and sprinkled with sequins.

They pearls edged the crown, which held in place a bouffant shoulder-length veil of silk illusion. The bride carried a circular bouquet of white carnations and roses.

Four attendants preceded the bride and her grandfather down the aisle. They were Miss Carol Neukam, maid of honor, Miss Cam Mimlitz and Miss Patricia Keller, sisters of the bride and groom, and Miss Jean Jones, bridesmaid. They wore street-length sleeveless dresses made on Empire lines with bodices of royal blue velvet and royal satin skirts. Double bows of velvet and satin secured circular face veils and they held bouquets of red roses.

A little flower girl, Diane Keller, sister of the bridegroom, wore a royal blue satin dress with collar and cuffs of velvet and carried red roses in a white basket. The candles were lighted by Cynthia Mimlitz and Steve Keller, sister and brother of the bride and groom.

Comanches Dominate 9th All-MW Grid Team

The Press-Record's All-Midwestern Conference football team is the only team chosen by the conference football coaches. Each coach picked a first and second team while not voting for any of his players. Players with the most points (two for first-team nomination and one point for second-team nomination) were given the all-conference berth.

Coaches Select All-Conference Defensive Team

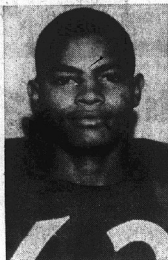

This year, the Midwestern Conference head football coaches have selected, in addition to the all-conference offensive team, an all-conference first and second defensive team.

Defensive team balloting followed the same procedure as the offensive team. Manwaring, Gilmer Win Again; Hammon Top Conference Scorer

Undeafened in league play and losing only two games in overall play, the Comanches of Cahokia high school placed five men on the first team to dominate the Press-Record's ninth annual All-Midwestern Conference football team again in 1986. In 1985, six Comanches players were selected for the conference team. The Comanches this year placed Jerry Goersch, Monty Rachell, Terry Mondy, Mike Chartrou and Don Gilmer (1985 MW All-Conference halfback). Coach Pete Turan's squad, with a 5-0 conference record and a 7-2 season mark, topped Coach Ed Hartweg's Bethalto Eagles' 4-1 conference record, and matched the Eagles' 7-2 overall record.

The Press-Record's all-conference football team was chosen by the MW conference head coaches, with each coach voting for any player except his own. End Craig Manwaring of Bethalto and halfback Don Gilmer of Cahokia were the only players to receive first-team designation both last year and this year. Both Mervin Owca, Madison, and Monty Rachell, this year's first team offense guard selections, moved up from last year's second team.

Rachell also was selected to fill a linebacker slot on this year's first squad all-conference defensive team. Horst Driesner, Highland, also moved up from 1985's honorable mention group to fill first-team defense this year. Coaches participating in the voting were: Mo Tschann, Roxana; Pete Turan, Cahokia; Glenn Pickering, Madison; Ed Hartweg, Bethalto; Frank Prechal, Highland; and Paul Stuart, Dupo.

END SELECTIONS
In selecting all-conference ends, coaches chose Joe Collins of Madison and Craig Manwaring of Highland. Collins was the Trojan's most outstanding pass receiver of the season. Manwaring, also a basketball star, increased his number of passes caught from 29 in the 1985 season to 41 this season.

The 210-pound Manwaring is an aggressive runner and tough to bring down. He has sure hands and will be missed on next year's Bulldog squad.

ALL-LEAGUE TACKLES
One of the all-conference defensive tackle spots was filled down by Jerry Goersch of Cahokia.

The signal caller of the coaches' choice is Ricci Stotler of second-place Bethalto. Tossing 79 completions in 140 tries, Stotler connected on 10 touchdown passes and 102 yards this year. Besides throwing TD passes, he scored four TDs, one a four-yard run, two on pass interceptions of 78 and 43 yards and a fourth on an 85-yard punt return. Stotler also kicked three field goals from 35, 27 and 18 yards out, and kicked 18 extra points for the Eagles this year.

The junior also netted 196 yards rushing in 36 carries. **ALL-STAR HALFBACKS**
The second Cahokia player in the backfield is Don Gilmer, winner of the second year in a row. A 190-pound senior halfback, he scored 74 points, an increase of 14 from last year. Gilmer gained 804 yards in 86 carries. He had touchdown runs of 10, 18, 29, 45, 64, 80, 81, 83, 84, 87, 90 and 92 yards.

According to coach Turan, "He will be missed next year." Bethalto's Ken Hammon was selected for the other halfback slot on the all-conference team. It was his first all-conference listing. Hammon is the conference's leading scorer with 17 TDs and 102 points total. Averaging 126.2 yards gained per game during Bethalto's outstanding season, Hammon caught 36 of 52 passes for a mark of 692.

CENTER
Voted the most improved player on the Cahokia squad, Terry Mondy makes his first appearance on the all-conference line-up in the center slot. Turan considers the 215-pound senior one of the best centers Cahokia has produced. "He does an excellent job snapping the ball on our punts and extra points."

Dinner Tonight for Coaches of Conference

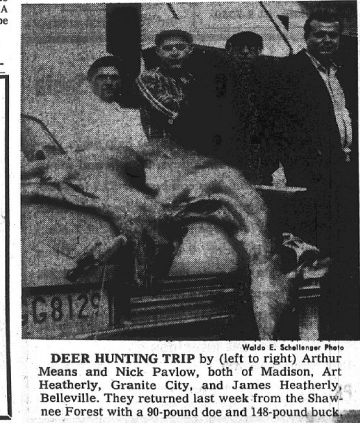

The Press-Record's ninth All-Midwestern Conference team will be the topic of a banquet for MW Conference head coaches and their wives. Hosted by the Press-Record, the event will be held tonight at the Rose Bowl restaurant.

Parked Trailer Dented

Glen Murray, 2512 Jerden avenue, reported at 1:20 p.m. Friday that someone knocked dents into the side of his trailer parked during the night at his home.

No Loss in Garage Fire

Fire caused no damage at 7:45 p.m. Saturday in a garage at 1924 Joy avenue. The blaze was attributed to a child igniting a pile of papers and magazines.

Warriors Open New Cage Season at Roxana Tomorrow

With a starting lineup decided, and the variety emerging victorious from a full-scrimmage game with the junior varsity, the Granite City Warrior cage squad will open the 1966-67 season tomorrow night when it travels to Roxana. Game time is 8 o'clock.

Scouting prospects should look good with four returning letter-men in the starting five. However, Ralph Sackett, Warrior cage coach, told the Press-Record that three of the four, Terry Moore (6'4"), Jim Hentzel (6') and Jim Stuart (6') will not have their shooting down pat for three weeks or more because of their participation in football, which delayed their basketball practicing.

Moore, who will start at center, averaged 13 points per game last season. Hentzel at forward topped the returnees with a 391-point total last year. Stuart held down a regular guard position until he was dropped from the team due to illness.

Mike Hoy (6'1") at forward and Gary Simpson (6') at guard will start with them tomorrow night.

All Have Shooting Eyes Sackett said that although both Simpson and Hoy lack mostly experience—Hoy played mostly junior varsity and Simpson was on the Warriors' sophomore squad last season—they are good marksmen.

Bob Malotki, who replaced Simpson midway last season when he became ill, will not be available tomorrow because of an injury sustained in practice.

"We may be able to get him in the Chokolia game this Friday. They've taken the cast off his ankle," Sackett reported.

Commenting on game strategy, Sackett said that the Warriors will use a disciplined offense and a pressing defense.

He said that in the scrimmage game with the junior varsity, won by the varsity 70-46, both the offense and defense looked sharp.

"We aren't tall enough to overwhelm anyone. We will have to work hard and be aggressive to win," he summed up.

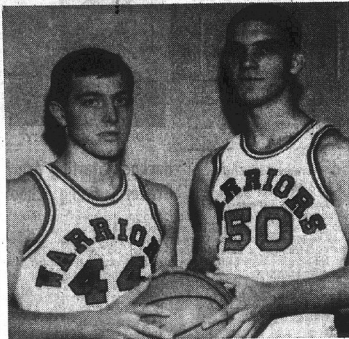

The Warrior cagers had a 15-12 record last year but are widely recognized as having a chance for bigger accomplishments this season—their second under the tutelage of former Collinsville star Sackett.

Crash on Wrong Side

Arrested after his northbound car had hit the front of the parked auto of Gary McCauley, 2240 Lee avenue, at 9 p.m. Saturday in the 2000 block of Illinois avenue, James R. Simpson, 26, of 2302 West 23rd street was charged with driving on the wrong side of the street.

Two Traffic Charges

Clyde E. Stark, 1917a Benton street, was arrested on charges of driving too fast for conditions and careless driving at 20th and State streets at 6:05 p.m. Friday. He was summoned for a hearing by next Monday.

WARRIOR CO-CAPTAINS Jim Hentzel, left, and Terry Moore, set for season opener tomorrow night at Roxana.

Venice in Conference Tourney Tuesday

The Venice Red Devils will open the four-day Madison, Clinton and Macoupin counties conference basketball tournament tomorrow when they tussle with Aviston at 7 p.m. at the tournament site, St. Paul high school of Highland.

If the Red Devils, who won the tournament last season, win over Aviston, they will play the winner of the Worden vs. Westlin game at 7 p.m. If they win both games, they will enter the finals Saturday night. A loss Tuesday would put Venice in an 8:30 p.m. Thursday game.

Bill Ohlendorf, Red Devil coach, told the Press-Record that the team has been plagued by injuries and influenza.

ROBERT DUBEISE
Vietnam Returnee

Venice Man Home After Surviving Bullet, Mine

Thanksgiving Day had double significance this year for the Dubeise family, when Army Specialist Robert J. Dubeise, 28th Infantry, returned home Thursday evening after a year's duty in Vietnam. His homecoming was not unexpected, but the specific arrival date was not known to the family.

The 20-year-old soldier's wife, Connie, and daughter, Misti, two years old, have been residing on Washington avenue in Granite City while he was overseas. He is a son of Mr. and Mrs. James Dubeise, Apt. 74, Venice Homes, Venice.

While a member of the Second Battalion, 27th Infantry, in the 25th Infantry Division, Dubeise saw combat duty as a rifleman. He narrowly escaped injury to death on two occasions—once when a water canteen attached to his belt was struck by a Viet Cong bullet and another time when a land mine exploded near him, blowing off part of his clothing.

Dubeise attended Venice high school and enlisted in the service two years ago. He will spend a 30-day furlough at home prior to leaving for a new assignment in Indiana.

Arsenal in Auto Not Used During Capture by Police

A police radio broadcast picked up by Madison police led to the apprehension of three men last week as suspects in the armed holdup of the Madison tavern, 2001 Washington avenue, Granite City, according to a report by Sgt. Edward Zobok and Patrolman Krieschok of the Madison department.

The trio surrendered to the officers after having a shotgun and automatic on the floor.

Both officers were in the Madison police headquarters when the report of the robbery was broadcast by Granite City police.

They began driving east on Third street toward McCambridge avenue, they reported, and before reaching McCambridge received a radioed report that a black Corvair auto might have been used in the holdup.

Spot Auto Block Away

As they reached Third street and McCambridge avenue, they sighted a dark-colored Corvair on Second street, heading south toward East St. Louis.

They gave chase across the McCambridge viaduct and pulled the car off the road on Harrison street, Eagle Park Acres, at the intersection with Route 203.

One man, identified as Charles Gerold Warrack, 21, Granite City, was in the back seat, the officers reported, and two other men were in the front seat. They later were identified as Anthony Evanoff, 22, Madison, and Raymond L. Beaton, 20, Paducah, Ky.

Zabotka and Krieschok searched the three men and found no weapons on them. Handcuffs were locked onto their wrists. At this point, Patrolmen Charles Mize and John Kittel of the Venice police arrested as well as three Granite City police cars.

Find Guns, Money, Masks

The three suspects were turned over to Granite City police for county prosecution. In the report the Madison officers said that at the scene of the apprehension, they noted the following items inside the car:

One shotgun on the rear floor. It had a dark, short wooden stock and black tape on the stock. The barrel looked like it may have been sawed off, and was shorter than federal law permits, it was alleged.

One automatic weapon, dark steel with brown grips, possibly a .38-caliber. It was on the right front floor.

Four coats on the back seat. A tan cloth face mask, with holes cut out for eyes, on the dashboard on the driver's side.

A black cloth face mask, with holes cut out for eyes, on the front seat.

A cloth glove on the dashboard and two brown cloth gloves on the front seat.

The three leading roles are Sakini, played by Alex Urban; Lotus Blossom, played by Diane Nocheff; and Captain Fishy, played by Frank Joachimsthaler.

Curtain time is 8:15 and tickets are \$1.25. Mrs. Howard Dartt, corresponding secretary, said.

Mail Your Christmas Cards, Gifts Early, Quad-Cityans Urged by Three Postmasters

Postmasters W. T. Overbeck, William Clinton and Charles Simmons reminded Quad-City residents today that there are only 25 mailing days before Christmas.

"While that may seem like a long time to most people, it is frighteningly short to those of us in the postal service," they said in a joint statement.

Postmaster General Lawrence F. O'Brien has predicted that well over eight billion pieces of mail must be delivered between now and Christmas Eve, a new record.

"We are asking everyone to start thinking about their Christmas shopping and mailing now, if all the holiday mail were to hit the postal system at one time, it is obvious that we'd have difficulty delivering every piece on time."

Suggestions Listed:

• Use Zip Codes on all mail. "If there are some Zip Codes that you still need for your mailing list, come to the post office and look them up in our Zip Code directory or give us a call. Zip Codes are more important than ever this year."

• Prepare your gift list right away. "The earlier you do your shopping, the better chance you have to get exactly what you want while the stores are still full of merchandise. That way, you can mail earlier too."

• Be sure to have enough boxes, tape, string and wrapping paper on hand.

• Wrap your packages well. "Include sufficient padding. Remember that your parcel may be shipped in a mail sack with a set of encyclopedias riding on top."

• Include a card or piece of paper inside the package with your name and address and that of the person to whom you are sending the parcel, in case the wrapping should be loose and come off. "That way, you can be assured your gift will not wind up in the dead parcel office. Also, insert a list of the package's contents," the postmasters said.

• Address your gifts and greet-

ings clearly so that postal workers will have no difficulty in reading the destination.

Use first-class postage on greeting cards. "This assures their being forwarded if the recipient has moved. Cards that are undeliverable will be returned when you include a return address on the envelope."

The Post Office Department has issued a special five-cent Christmas stamp which will help decorate your holiday mail."

• Most important, mail early.

Mayors' Group to Act On Dump Smoke Problem

The Southwestern Illinois Conference of Mayors will discuss plans for seeking state assistance in eliminating dump fires at its regular meeting in Sunset Hill Holiday Inn, Wednesday.

The dinner session is scheduled to start at 7 p.m.

Members of the safety committee of the mayors' group agreed last week that smoke from dump fires, including the area south of the Quad-Cities, contributes extensively to poor visibility on foggy days.

They announced they will ask the mayors to seek elimination of some of the dumps, either through state agencies or new legislation.

The committee took up discussion of the problem after one of the worst fogs in many years caused numerous auto accidents on Interstate 70 and Route 203 two weeks ago, resulting in the deaths of one truck driver and many injuries.

At 2:25 p.m. Dec. 13 there will be a hearing on Nameoki township property of Mrs. Mary E. Price at 4243 Breckenridge lane, Nameoki Gardens. She is asking for a special use permit to place a mobile home there.

Stage Play at SIU-SW Campus on Dec. 1-4

Southwestern Illinois University's Southern campus will present its first theatrical offering of the current season year Dec. 1 through Dec. 4 in the Studio Theater of its new Communications Building.

Entitled "Spoon River Anthology," the production is a stage adaptation of Edgar Lee Masters' Spoon River poems. The six actors and actresses assume the roles of 72 characters, who arise from their graves to give their own epitaphs.

Included in the east are Carol Thompson, Belleville, Mary Helen Klein and Dale Thompson, East St. Louis, James Festerman and Charles Trent, Edwardsville, and Marion Stelzleni, Ferguson, Mo.

Janice Pavoda, Godfrey, and Gene Kuntz, Roxana, who play the roles of folksingers, won first and second places, respectively, for their folkings in the SIU Homecoming talent show this fall.

Miss Klein, Thompson and Festerman have all had major roles in SIU theater productions at both the East St. Louis and Alton centers. Festerman has also appeared in productions at Monticello College.

Carol Thompson, a transfer student from the University of Arkansas, has numerous roles to her credit there and has acted professionally. Stelzleni and Trent will make their first college appearances in "Spoon River Anthology."

Directing the play is Dr. Stephen Archer, a new member of the theater faculty at the SIU-SW campus. The setting has been designed by Dr. William Villauer, who also joined the theater faculty this year.

Tickets for the production may be reserved at the Fine Arts Division office in the Peck Classroom Building at SIU-SW. Admission is free, but no one will be admitted without a ticket, according to Jan Van der Poll, business manager of the University Theater.

Advanced reservations have already exhausted the supply for the Dec. 2 and 3 performances. Miss Van der Poll said. Seating capacity of the Studio Theater is 120.

Applications Exceed 425

Requests Due Friday For Yule Gift Baskets

The deadline is Friday to submit applications for Christmas baskets through the Salvation Army's "Tree of Lights" program. Lt. Donald Wisor, local Salvation Army commander, announced today.

More than 425 applications have been received at the Army's headquarters, 1421 Nineteenth street, since the project got underway Nov. 7.

Those wishing to apply for food baskets, clothing and toys may call in person at the office between 9 a.m. and noon and between 1 and 4 p.m. today through Friday. Applications will not be accepted by mail or telephone.

Lt. Wisor is reminding organizations that wish to coordinate their own gift basket distribution program through a central agency to notify the Salvation Army office as early as possible. The Army headquarters has been designated as the official clearing house for all Yuletide basket projects handled by Quad-City United Fund agencies, Lt. Wisor reported.

He explained that compiling a master list of applicants avoids

double issuance to families and permits greater distribution to the needy. Referrals from the list are made to groups wishing to provide food or clothing items.

Bi-State to Get \$90,000 Loan To Pay Arch Bonds

Continued delay in completion of the Gateway Arch transportation system will force the Bi-State Development Agency to borrow \$90,000 to meet a January interest payment on its revenue bonds. Bi-State commissioners authorized the loan in a meeting Wednesday.

The \$90,000 loan will be obtained from the Mercantile Trust Co. at 4 1/2%, secured by the \$5000 the agency receives monthly from the city of St. Louis and the National Park Service. These receipts are from a municipal parking lot on the riverfront and are paid to Bi-State for installation of air-conditioning in the Arch.

State Rep. E. E. Smyser Jr., executive director of Bi-State, said there are insufficient funds remaining to meet the Jan. 1 payment without the loan. He said there still are "minor problems" with the train installation and that he has been unable to obtain a commitment from the contractor on when they will be corrected.

The Bi-State board also voted Wednesday to authorize application to the Housing and Urban Development Department for a study grant to determine "disadvantaged areas" for experimental operation of reduced fare lines to areas where jobs are available.

Prepare Data for HUD

If the study and experiments indicate the additional service would increase employment and cut welfare rolls, the Bi-State Transit System could apply for an operational grant ranging up to 100% of the cost. Col. Smyser said data on the intended scope of the study is now being prepared to send to HUD.

The commissioners also approved an application for a \$300,000 federal grant to the Urban Transportation Agency to supplement a \$150,000 grant authorized by the State of Missouri for a rapid transit study. Bi-State already has made application for a grant in the same amount from HUD, but it was pointed out that quicker approval of the funds might be possible with the transportation agency.

Transit operations for October showed receipts of \$2,110,208 and operating expenses of \$1,704,530, according to a report submitted in the meeting.

Bi-State commissioners also approved a salary increase of \$200 per year for Col. Smyser, to \$22,500. It was pointed out that Col. Smyser started at \$18,000 per year six years ago and had only one raise since, \$2000 in 1963.

Nixon to Address Illinois Manufacturers Dec. 15

The 73rd annual dinner meeting of the Illinois Manufacturers' Association is to be held on Thursday evening, Dec. 15, at the Conrad Hilton hotel in Chicago.

Visit to Old School Brings Many Memories

By JOHN W. ALLEN
Southern Illinois University

After 21 days in attendance at the 1959 annual term of "Old der School," later known as Number 10, the second round of a lifelong, entanglement with school began with a first day at "Hardscrabble," correctly recorded as Ghelson School, District Number 12, this second round came at about midwinter of 1959-64. The teacher was Mel Chick.

To that first day at Snider School, sister and I were taken along a dusty and well traveled road to the school, about a mile away.

To the first day at Hardscrabble the procedure was a slightly different one.

Instead of going down a dusty road, a new pathway was marked through the winter woods toward the school, a bit more than a mile away. With the axe he carried, my father made blazes on trees along the chosen way.

Like the memories of others with whom notes have been compared, it was these somewhat detached activities that are remembered most vividly and in greater numbers.

The fact is that about all the remembered happenings of the year directly related to the classroom are the occasional notes from Aaron Miller, teacher during the winter of 1955. They said something like "John should have a McGuffey Speller" or "Please get John a Harger's Third Reader."

Tygn came "John needs a White's Primary Arithmetic." Next was "John should have a pen and ink."

Memories of the pen and ink and the third reader, little white copy, that gentleman seated himself beside me and "set a copy." Since Mr. Miller was an excellent penman, the "great oaks from little acorns grow" copy was a good one, an ideal still on the unattained list.

On the line just beneath the copy, a "reasonable facsimile" was laboriously traced out. All the while I looked intently at the teacher's copy.

On the next line, the process was repeated, seemingly with an eye on the first pupil-written one. Apparently using the same process, work was continued until the page was filled.

Each succeeding line written seemed to deviate more from the teacher's copy. Studying the page carefully, the scribbler concluded that he never could learn to write legibly. A lifetime has thoroughly convinced him that the conclusion was correct.

The third reader also left a lasting impression. Its every poem was memorized at the teacher's insistence.

About half the prose was learned by reading and rereading and by listening to the "slow readers" as they, with grimy index fingers pointing the way, monotonously called the words.

There may have been some advantage to this I see — a dog method while classmates listened along and read between the lines, all the while wondering if the struggling reader ever would mount the next hurdle.

And "nurdles" revives memories of the first day at Hardscrabble and of the banded shirtwaist, equipped with the buttons necessary to support John's pants.

That waist was imprinted with countless red-shirted riders jumping over hurdles.

It also brings to mind Frank Buxton, about my age, who said he thought the waist was pretty and thereby became my first Hardscrabble friend. All this took place underneath an oak bush about two inches in diameter, now a tree two feet through.

Abandoned as School

In the 72 years since Hardscrabble was first known, the building has withstood the ravages of time right well. Abandoned as a school about 40 years ago, it has served as a storage place for corn, soy beans, wheat, oats, commercial fertilizer, stock feed, and assorted other things.

Some of the trees, large then and massive now, still shade the corner of the one-time playground. They serve to remind very old visitors of the time when they, as mere tots, played there.

Every visit to this old school starts a flood of memories. The latest one, like most all of them, revived memories of the things learned on the schoolground more often than those gotten from the teacher.

At this time we fell to thinking of playground games, hardly any of which are seen being played now.

For rainy days there was "Animal, Mineral or Vegetable," which doubtless set the precedent for television's guessing games.

There were many varieties of ball games—move-up, long town, cat of different patterns, bat ball, shiny, old sow, bull pen, burn

Inch of Rain Floods Streets on Saturday

Rainfall that began during the day Saturday continued for most of the night, flooding many streets in Granite City and Madison and a section of Route 208 south of Madison.

Most travelers had reached their destinations before the deep flooding occurred, but police cars had to make detours in carrying out their patrols and investigations.

Rain recorded at the Granite City canal locks shows nothing on Thanksgiving morning, 12-inch Friday, 11-inch Saturday morning, 1.07 inches Sunday morning and a trace in the 24-hour period ending today.

County in Southern Ill. Milk Marketing Order

Madison county is now a part of the Southern Illinois federal milk marketing order after previously being a part of the suburban St. Louis order, which is being expanded simultaneously with the name change Jan. 1.

Approval was determined in a dairy farmer referendum held this fall. In southern Illinois, 96.9% of 2284 voters approved the amendment.

Forty-nine counties will be divided into three pricing zones, with Madison county in the base or central zone.

As under all federal milk orders, dealers will pay for milk according to how it is used. Class I will be fluid or bottling milk and cream, and Class II will be for manufacturing uses.

The base zone will be seven cents less than the St. Louis Class I price, subject to supply-demand adjustments to help maintain price alignment among adjacent markets.

Parked Car Damaged

A hit-and-run car damaged the parked auto of Joe Leutenegger, 2104 St. Clair avenue, at that address, police discovered at 3:40 a.m. Sunday.

Soldiers' Yule Visits to be Costly

To the Editor:

Some officers in command at Army training camps are suggesting to our soldiers that they should buy full-fare tickets to expedite transit home for Christmas.

Why should our soldiers, who are supposedly eligible for half-fare rates, be treated like this?

They are training to fight our battles in foreign countries, and will be exposed to disease and possible death.

It is my opinion that the soldiers should be allowed to purchase tickets at a reduced rate, without interference from officers with dollar signs in their eyes.

SOLDIER'S FATHER

Petty Politicians DEFEATED DOUGLAS

To the Editor:

The election of Nov. 8 is a thing of the past. I would like to write a few lines expressing my feelings—some kind of post-mortem on the defeated U. S. Senator of our state of Illinois.

There is not much to say though I am not sure no space limitation one could write an elegy a mile long about this great man of the people.

He was defeated by those he worked for—a liberal who had a heart for the aged as well as for the poor and the oppressed.

I never was a member of any party, and never received any privileges from any party.

But I believe if the petty politicians of Illinois would have dared to stick their neck out a little publicly (and I mean those of the Democrat party), those who like to travel with the big wigs and are sitting on the rostrum with the bigwigs when some one delivers a campaign speech, I believe things would have gone better for this great man who always was outspoken.

Associates in Park ATHLETICS RAISED

To the Editor:

I wish to thank the Granite City Park District commissioners and officers for their recognition of me at the appreciation awards dinner Monday night.

I also wish to acknowledge the kindness of the people who helped me in my years of association with the park district baseball league.

Penicillin-Selective Cell Killer

(American Institute of Biological Sciences)

How does penicillin kill bacteria which invade the body without killing normal cells?

This question has been of much interest to scientists since the discovery of penicillin in 1929.

Researchers at the University of Wisconsin have found that penicillin stops invading bacteria from building their own cell walls. The cell wall is necessary for the bacterial cell to maintain its stability. Without a cell wall to contain them, the growing bacteria cells "burst" and die.

Human and other animal cells do not need or have a cell wall. They do have a limiting membrane, which, while of very fragile construction, is not harmed by the penicillin.

Bacteria cell walls are very complex and about 30 steps are used to make cell walls. The cells use at least one fourth of their energy in this building process.

The bacterial cell wall can be imagined as a set of ropes which are tied together to make a kind of fish net around the bacterial cell.

Penicillin prevents these ropes ATP in red blood cells. To do from being tied together, almost this, they put the cells at a solid at the last minute, actually preventing the last step in the cell wall building process—stopping the amount of light produced.

Prompt Council Redistricting Best Assurance Against Court Intervention

Less than 75 days remain for the Granite City council to redistrict in time for the 1967 aldermanic election.

The sooner action is taken, the more time candidates will have to make themselves and their proposals known in the neighborhoods designated for new wards.

If the aldermen reapportion the city on their own, they and local citizens will retain a voice in the decision. If they fail to meet their duty to conform to the "one man, one vote" concept, they will risk having current wards and past and present city actions invalidated by citizen lawsuit attacking unequal representation.

From the standpoint of the average voter, it may not make a great deal of difference whether the new ward boundaries are determined by the city government or by the courts. A judge unfamiliar with the city might do an excellent job. He would be unhampered by any personal considerations in drawing lines to equalize ward size. He would not be familiar with the various potential candidates reside, nor the effect on them of possible boundaries.

But in the interest of saving taxpayers the cost of defending a suit, and in the interest of getting the job done as expeditiously as possible, it would be more desirable for the council to get on with the task.

Now that the council redistricting study committee is to be expanded, there is no good reason why the two council factions will not work out a compromise. They undoubtedly would find it far more satisfactory than redistricting carried out by the courts.

Gang-Style Murder Latest Episode Involving Secretary of State Office

With organized crime so dominant in northern Illinois, it is not surprising that it tries to influence state government. But it is still shocking to learn of the gang-style murder last week of Charles Crispino, a former investigator in the office of Illinois Secretary of State Paul Powell (D).

It will be recalled that Mr. Crispino testified last month before a Cook county grand jury investigating charges of corruption in Powell's office.

Supervisor Office Links Township and County Governments in Illinois

Fireflies' Flashes Recorded

In an age of highly sophisticated instrumentation, it's still important to light in a firefly's tail material the brightest possible flash from a lightning bug's tail.

A research team from the University of Rochester did not measure firefly flashes just for fun. For several years, it has been known that the intensity of light in a firefly's tail material is an accurate measurement of the most important chemical process in any living organism.

The light in the bug's tail is turned on by adenosine triphosphate, a material so fundamental to life processes that its short label—ATP—is a "household word" among biologists.

ATP is so important because it is the medium of exchange of energy in every living biological system, including the human body.

In order to determine the amount of ATP and the enzyme which activates it (known as adenosine triphosphatase) in living tissues, the biologists have turned to lightning bugs.

The Rochester investigators wanted to measure the amount of ATP in red blood cells. To do from being tied together, almost this, they put the cells at a solid at the last minute, actually preventing the last step in the cell wall building process—stopping the amount of light produced.

Chief Administrator in the Township is the Supervisor, who directs affairs; presides at meetings; functions as treasurer and overseer of health and welfare; and performs other duties.

Larger townships have assistant supervisors, but, in most cases, he performs only one function along with the supervisor—that of sitting on the County Board.

In this capacity, the board members oversee the operation of county offices, and interrelate the work of township functions, that of a metropolitan govern-

The slain man, a 1962 state representative candidate, at one time worked with Frank Porcero, Powell's former chief investigator, who has just started serving two concurrent prison terms for bigamy and theft of state funds.

The jury before which Mr. Crispino testified was investigating tape recordings allegedly made of a conversation between Porcero and Under-sheriff Edmund Kucharski. The latter says Porcero told in the recordings of payoffs by the crime syndicate to persons in the secretary of state's office. The meeting between Kucharski and Porcero had been arranged by Mr. Crispino.

Specific wrongdoing has not been established. But it is impossible to avoid recalling at this time that Powell's term has brought a succession of such controversies ever since he took office.

Two years ago, we said that neither candidate for secretary of state deserved endorsement. We call upon Republicans now to make sure they give voters a clear choice when they nominate an opponent of Secretary Powell in 1968, if he should run for re-election.

Diversion of County Juvenile Home Balance Would Break Faith With Public

Madison county residents voted 31,432 to 29,505 to build and operate a juvenile home with a combination of an existing fund balance and proceeds from a new penny-and-two-thirds tax rate.

Since this combination was used repeatedly in pre-election public opinion polls, it is fair to say that the voters would be misled if the balance to be diverted to the new home was to be used for anything other than the purpose for which it was raised.

The county is the feasibility of such a proposal, the county has made a promise on the juvenile home that it must live up to.

No doubt Chairman William Webb's juvenile home committee, which has worked so hard and so long to have the home built, will fight hard against any behind-the-people's back diversion of funds.

Handy, Dandy New Memory Tester

We have always been fans of the telephone company, which lets few weeks go by without developing some new device to enhance our daily life or to improve our national defense.

We still are admirers, even after long-distance dialing has so seriously close to all-number exchanges, and even after the latest expansion of direct distance dialing brought us an eighth digit to remember.

But our support of telephone technology admittedly is being strained by the latest plan, in which identifying numbers are being assigned to various continents by the international telecommunications organization. It's true that this will set the stage for worldwide dialing, but it's going to be mighty hard to remember phone numbers that use anywhere from 13 to 17 digits. Guess we'll just have to quit trying to match our telephone and auto license numbers.

Legislation to Decide

Some day in the near future the Illinois state legislature will be called upon to vote on this issue. The people will not have this opportunity, except as they influence their legislators. At present, only the Chicago area would be affected.

Present functions of township government, and the operational areas in which it can work, include: taxation, health, welfare and poor relief, education, local improvements and control of abandoned land.

In recent years, the state legislature authorized townships to set up youth commissions, and many townships now have successful, low-cost service programs to help control juvenile delinquency.

A multi-community problem which townships can help solve is the matter of refuse disposal. This is now undergoing intensive study.

Another area of activity in which townships are beginning to help is mental health. A cluster of communities can organize a mental health center under township jurisdiction rather than proceeding on a single-community basis.

Arab-Israeli Issue

The following letters have been taken from the Department of State.

In a document from the Bureau of Security and Consular Affairs concerning travel to the Arab countries, it is stated that United States citizens of Jewish faith are restricted in traveling to the Arab countries.

It is even more disheartening to be told that although "the United States is flatly opposed to such discriminatory practices against Jews and strongly protested against them to the countries concerned," these practices persist.

How can the relatively weak Arab countries flaunt our nation in its reasonable request that all her citizens be treated equally?

Mr. R. O.:

We're firmly opposed to policies of foreign countries that discriminate against Americans because of their religion.

We have made clear this opposition on numerous occasions and our embassies have not hesitated to raise the matter with other governments when circumstances warrant.

Long experience we have found that the best way of making real progress in eliminating discriminatory practices is to appeal to the consciences of the people, but quietly within diplomatic channels.

Record shows that over the course of years there has been a gradual diminishing of discriminatory practices in the Arab countries.

Must Husband Pay Wife's Bills?

Legal aspects of married life are raised in "Advice to Newlyweds," published by the State Bar Association. It urges newlyweds to discuss with an attorney the legal questions and transactions they will face in marriage so as to avoid any problems later.

This liability for debts is binding on the couple even if the husband is a minor under 21 years of age and/or the wife is under 18.

Under Illinois law, both the minor husband and wife become "emancipated" from the protection of the state when they marry.

The pamphlet advises newlyweds to keep records of their financial affairs and to save receipts and canceled checks.

The annual charity ball held under the auspices of the Priscilla Club will be given in Granite City. The dance will be held at the Moose hall, 19th and State streets.

This affair is fast coming to be looked upon as one of the leading social events of the season.

The club, under whose auspices the ball is annually given, is composed of 12 young ladies of Granite City. They organize largely for social purposes but feel that, in addition to having a good time, they ought to do something of a charitable nature in the community in which they live.

They have, therefore, adopted an annual ball and entertainment luncheon as the means of raising the required funds.

Numerous friends of Jack Melton, the "Biggest Melton in Madison County" and the newly-elected circuit clerk, are busy arranging a free barbecue in Granite City. The celebration will take place at 22nd and Washington avenue, Dowling's buffet.

A magnificent steer has been secured for the barbecue and it will be placed over the coals so as to be ready to be served in sandwich form.

The 54th curfew whistle, which was stopped about a year ago, is again on the job every night, telling Granite City youngsters that it is time for them to get off the streets and into their homes. The rolling mill whistle is used for the curfew.

The third annual minstrel show given by members of the Commonwealth Fellowship Club will be held at the Moose hall, something of a fun and amusement is guaranteed.

The Diplomatic Pouch

U. S. diplomatic efforts can take part of the credit for this trend.

The enclosed article refers to the Russian Embassy renting a summer place in Virginia near a government installation.

I don't know why we should bend over backwards time and again to accommodate the Russian Communists.

The Russians should not be permitted to take over the site in question; there are plenty of other locations that they are not to acquire.

Dear Mr. F.:

The United States Government has a system of closed areas restricted to travel by Soviet citizens in the U. S. which reflects the security requirements of our country as well as restrictions placed on American citizens who travel to the USSR.

Clark County, Va., where the Russians have their summer camp, has not been restricted to Soviet travel.

While there are government installations in the county, as is the case of numerous other counties in the capital area, they are not of a nature which presently require this kind of protection.

In past years, the Soviet Embassy has rented summer homes on Chesapeake Bay. This also was permitted when the locations were in open areas.

Our embassy in Moscow enquired about the matter.

County Helps Support Coordinating Council

At its November meeting last week, the Madison County Board of Supervisors approved participation in the East-West Gateway Coordinating Council, a metropolitan area planning agency recognized by the federal government for coordination of highways and certain other programs utilizing federal highway funds.

As its 1966 share of the cost of operation of the council, the board appropriated \$499 in motor fuel tax funds. A single dissenting vote was cast by Rodger Elble, Wood River assistant supervisor.

In voting 21-1 to add one cent to the county general fund tax rate and 31-10 to add two cents to the county highway rate, the board reached the maximums currently permissible under state law—6.53 cents for highway purposes and 8.68 cents for the general fund. Last year, the county board added two cents to the general tax rate.

The county board certified to the State Department of Public Works and Buildings a lone application for appointment to succeed County Highway Superintendent Harry Kluge, who is retiring at the end of this year. The applicant is Lee Roy Schlemer, Edwardsville, now an assistant in the office.

Peace Corp Test for Quad-Cityans Dec. 5

Quad-City residents interested in putting their skills to use in developing nations around the world are being invited to take the Peace Corps placement test at 2 p.m. Monday, Dec. 5, at Room 414, Federal Building, 750 Missouri avenue, East St. Louis.

The Peace Corps uses the placement test to determine how an applicant can best be utilized overseas. The test measures general aptitude and the ability to learn a language, not education or achievement.

The test requires no preparation and is non-competitive; an applicant can neither pass nor fail. The application form, not the placement test, is the most important factor in the selection of volunteers. Persons interested in serving in the Peace Corps must fill out an application, if they have not already done so, and present it to the tester before taking the test. Applications may be obtained from local post offices or from the Peace Corps, Washington, D. C. 20525.

The placement test takes about an hour and a half.

AUTUMN BRIDE. Mrs. Edmund W. Christensen, who was married Saturday evening at Nameoki Presbyterian Church. She will be remembered as Linda Marie Evans, a daughter of Mr. and Mrs. William H. Evans, 3239 Edgewood drive.

Miss Linda Evans Bride Of Edmund Christensen

Altar bouquets of blue and white 'mums, greenery and candlelight provided the setting Saturday evening for the wedding at Nameoki Presbyterian Church of Miss Linda Marie Evans and Edmund Warren Christensen.

The parents of the couple are Mr. and Mrs. William H. Evans, 3239 Edgewood drive, and Mr. and Mrs. C. L. Christensen, 2022a Cleveland blvd.

White satin bows and turquoise 'mums marked the family pews. The candles were lighted by Miss Judy Lipscomb and Mrs. Penny Harold.

The vocalist, Mrs. June Branding, sang "Because" and "The Wedding Prayer," accompanied by the organist, Mrs. Dolores Amelie.

A sleeveless gown of pure white delustered satin was worn by the bride. It was fashioned with a scoop neckline and a graceful Empire A-line silhouette. Alencon lace motifs etched with pearls and crystals adorned the gown, over which was worn a removable chapel-trained coat with long tapered sleeves featuring more of the lace. Motifs of lace also accented the skirt.

A jeweled crown held in place a tiered veil of illusion. The bride's bouquet, a crescent of white roses, was combined with green foliage and centered with an orchid corsage.

The honor attendants and bridesmaids were dressed alike in sparkling turquoise-silk cloth with sleeveless high rise bodices of velvet and scoop necklines. Removable coats with short velvet sleeves completed the costumes and matching velvet headpieces were worn with shoulder-length veils.

They carried crescent bouquets of grape colored and light blue carnations tied with blue, grape and pink velvet ribbon.

Miss Paula Hays was maid of honor, serving with four bridesmaids, Mrs. Dale Misukonis, a

cousin of the bride, Miss Truely Bell, another cousin, Miss Mary Church and Mrs. Michael McClenahan; and a flower girl, Ken-Namoki Lyons, ring bearer, both young cousins of the bride.

The flower girl, wearing a miniature corsage and carrying a basket of petals, wore a dress with a floor-length frock of lace with a square neck and short puffed sleeves. A turquoise velvet ribbon encircled her waist and tiny turquoise rosebuds trimmed the dress. A matching turquoise velvet headpiece and veil were worn on her head.

The mother of the bride chose a long pink sheath ensemble ornamented with gold lurex lace. The Empire line cutaway coat revealed a sleeveless dress and accessories were of cranberry.

Mrs. Christensen, the bridegroom's mother, selected a broad tunic dress of bone and green with green accessories. Both mothers wore corsages of roses and gardenias.

Ronald Snelson was best man and Forrest DeBolt and Dee Harold, cousins of the bridegroom, Orville Ganz, Thomas Stewart, Harry McMillan Jr., the bride's uncle, Charles L. Lipscomb and Ralph Moore, cousins of the bride, served as groomsmen and ushers.

A reception was held in the "300 Room" of the Tri-Mor Bowl directly after the church service. The newlyweds will reside at 1928 Edgewood drive. Both are graduates of Granite City high school and both are employed in St. Louis.

Among out-of-town guests here for the wedding were Mr. and Mrs. John R. Webb of Oak Ridge, Tenn., Mr. and Mrs. George Evans, Farmington, Mo., Mr. and Mrs. James McMillan, Bonne Terre, Mo., Mrs. Mary Holman, Bowling Green, Mo., and Mrs. Forrest DeBolt and Mr. and Mrs. Dee Harold of Bluffton, Ind.

MRS. RICHARD A. KUBE, the former Helen Marie Ahrling, a daughter of Mr. and Mrs. Joseph T. Ahrling of Alton, who was married Saturday at St. Mary's Catholic Church in Alton.

The bride wore a floor-length gown of Chantilly lace and tulle. The lace bodice was designed with long sleeves and a high squared neckline. The laced apron of the skirt revealed an underskirt of ruffles.

A cathedral train of tulle, edged with lace, was attached at the shoulders and a tiered veil of silk illusion was secured by a band of fresh stephanotis and ivy.

The bridal bouquet was a cascade of stephanotis and ivy centered with a white orchid.

Miss Loretta Mills and Miss Kay Strack, both of Alton, served as honor attendants. They wore floor-length Empire sheath gowns with gold velvet bodices and taupe de sole skirts. The bodices were styled with round necklines and elbow-length sleeves.

Now...more natural gas for Metropolitan St. Louis!
This winter, charts like these will show more gas than ever before going to gas companies and industry in the Metropolitan St. Louis area. New, firm supplies are flowing into our pipeline system, and our underground storage is growing. Our deliveries of natural gas to this area will approach 700 million cubic feet in a single day—about 5½ times what it was only 20 years ago! This is a simple measure of the growth in our supply of this "clean air" fuel for a Greater St. Louis.

'Christmas Story' by SIU-SW Choral Groups

Two versions of "The Christmas Story" make up the program for this year's pre-holiday performance by choral groups of Southern Illinois University's Northwestern campus.

Presentations by the chorists of Handel's "Messiah" and Bach's "Magnificat" the past two Decembers drew standing-room-only crowds, so this year's program, at 8:15 p.m. on Sunday, Dec. 4, is being staged at the Edwardsville senior high school gymnasium, which will accommodate 2000 persons.

The first was done in the early Baroque period by an elderly Heinrich Schuetz in 1664, and the second was composed in 1959 by Ron Nelson and was his first major work.

The Schuetz version of "The Christmas Story" will feature the voices of 48 students in SIU's will be provided by a brass Concert Chorale, accompanied by the SIU Chamber Orchestra. Van Camp will direct the Principal soloist will be Irvin Martin, minister of music at Sec-

Student soloists include Sharon Chamberlain, Godfrey Shirley Simmons and Linda Pikey, both of Alto; and Glenn Hersh, Collinsville.

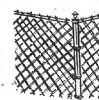

Nelson's composition will be performed by the 100-voice SIU Community Choral Society, made up of students and area singers, and SIU's male chorus and women's glee club, consisting of 35 and 60 voices.

Leslie Breidenbach, bass-baritone on SIU's music faculty, will be soloist, and accompaniment will be provided by a brass choir and organ.
